KARME
nature

"*Karme Nature®* is a young company that combines the freshness of youth with the solidity of over 35 years of experience in the sector. Since our beginnings as pioneers in the manufacturing of kangaroo napkins, we have constantly evolved our designs, introducing innovative proposals.

At Karme Nature® we are passionate about innovation and always stay at the forefront of the boldest trends. We have come a long way full of intense and exciting experiences, and we are committed to continue doing so. Our commitment to the environment is paramount, which is why we place great importance on everything that contributes to its conservation and environmental well-being. That is why we have developed our special *Eco Nature®* line, respectful of the natural environment, which we present in this catalog along with many other novelties."

www.karme.es

Our Beginnings

Pioneers in the paper sector

Our extensive experience dates back to the beginnings of a prominent company in the paper sector. From the manufacturing of the first paper napkins, known as flat napkins, which still endure today, we have been a fundamental part of the evolution of this market. Later on, we were innovators in introducing zigzag folded napkins, being one of the first companies to implement this folding and manual counting process. Our legacy as pioneers in the paper sector drives us to move forward, maintaining our commitment to quality and excellence in every step we take.

Years later

The birth of the paper tablecloth

A few years later, we witnessed the emergence of the paper tablecloth and became pioneers in its manufacturing. In a short time, this innovative proposal spread rapidly, reaching up to 20 manufacturers throughout Spain.

Great moment

Tissue Napkins

"The advancement continued with the introduction of the first Tissue napkins in the market. Initially, we launched a pioneering size of 30x30cm in white color. This milestone marked a crucial moment in our history as it represented the first product manufactured under our own ownership and autonomy. This significant achievement propelled us to continue innovating and consolidating our presence in the sector, always maintaining our commitment to quality and excellence in every step we take."

Important event

40x40cm Napkin Machine

Soon after, we decided to acquire a new 40x40cm napkin machine, and shortly after when mini-service napkins became popular, we also incorporated this option into our product line.

Present day

Our mission

At Karme Nature®, we have come a long way full of enriching and exciting experiences. We are committed to continuing to advance with the same passion, always focused on protecting and favoring Mother Nature. We greatly value everything that contributes to its conservation and environmental well-being. That is why we have created our exclusive Eco Nature line dedicated to promoting sustainable practices and respecting the environment.

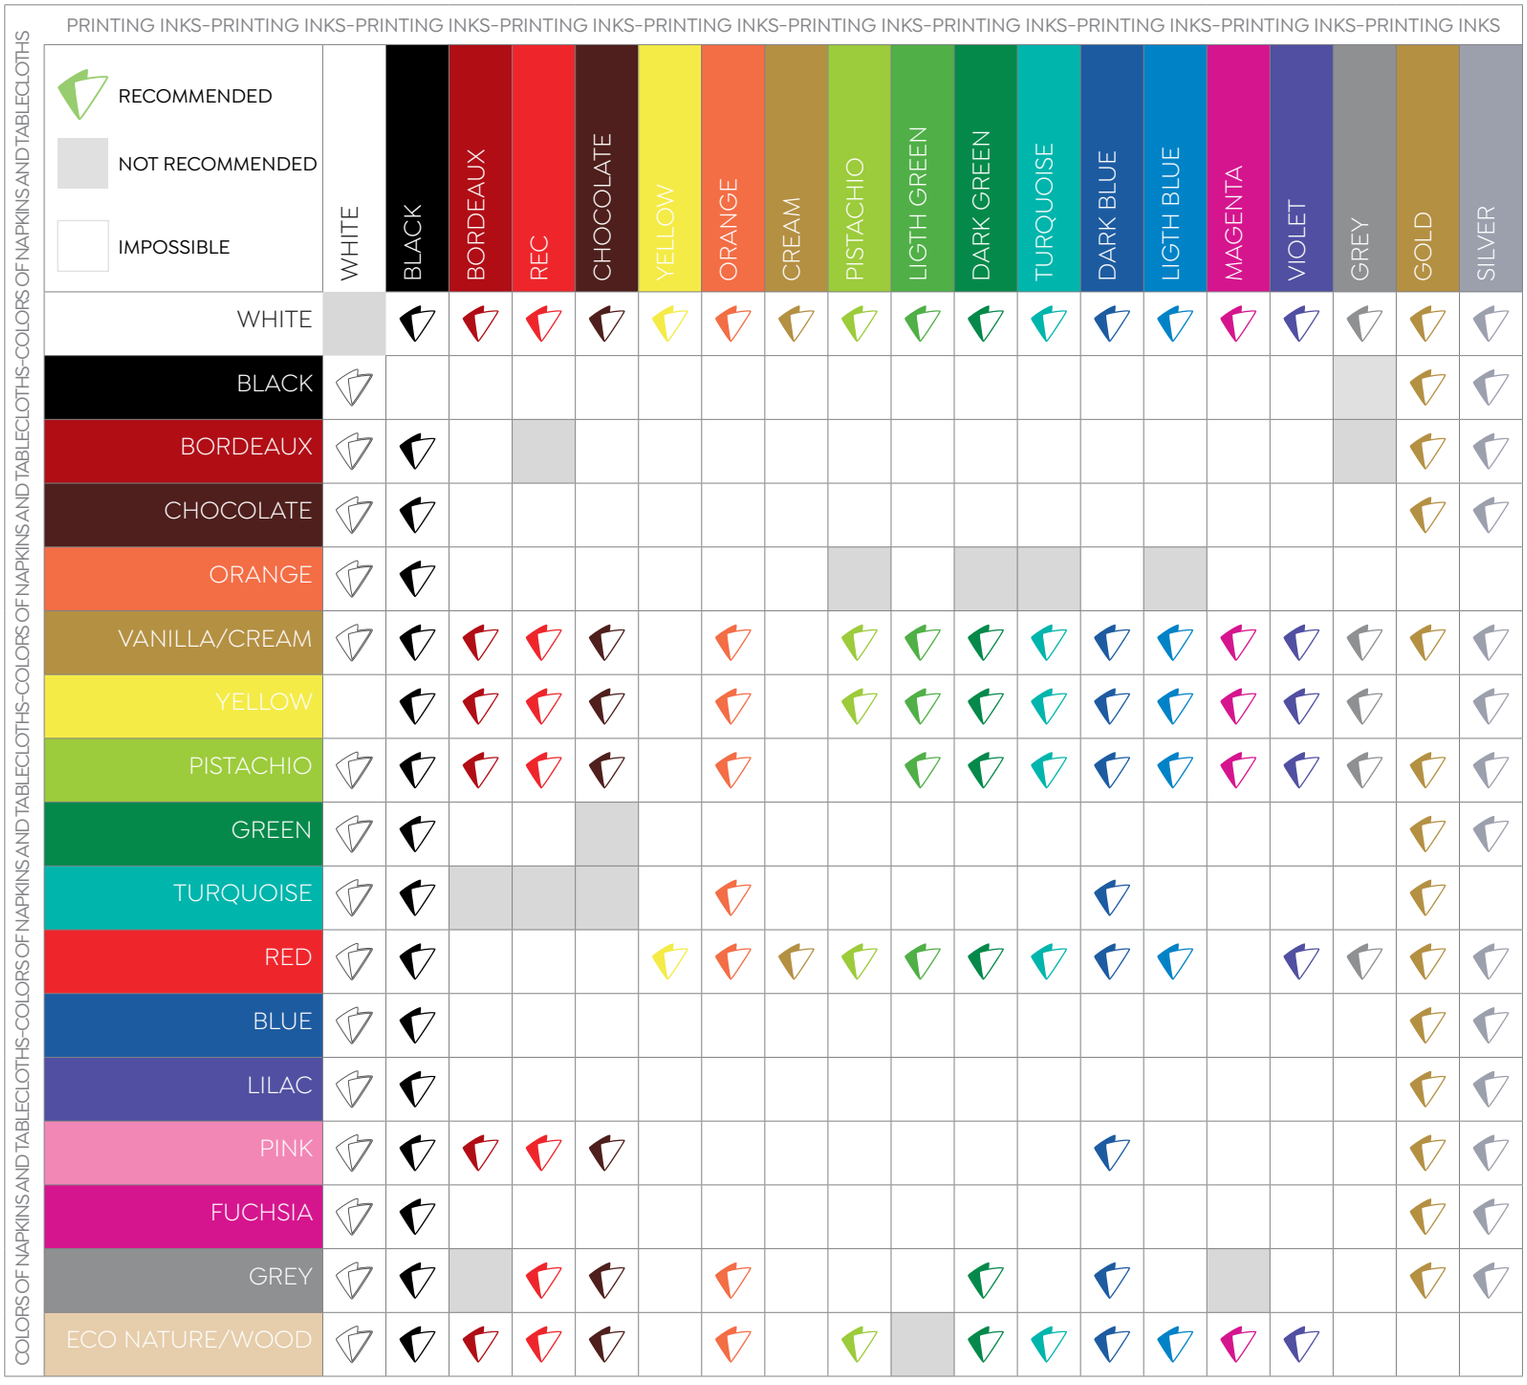
RECOMMENDED COLOR COMBINATIONS

THE COLOR IS WHAT WE ARE

RECOMMENDED COLOR COMBINATIONS



1 In order for a printed material to be legible, it is important to use the right color combinations. In this table, we provide a series of possible combinations to ensure readability.

2 We work with a wide range of colors to adapt to your needs and offer almost any combination for your corporate identity.

3 It is important to follow the recommendations given. Therefore, we have graphically represented different combinations between the color of the support and the possible ink to be used, so that it can be legible and suitable for reproduction.

4 The color tones will be approximate as it should be taken into account that the same ink can acquire different shades depending on the support on which it is printed.

5 It is advisable to consult with the company about any combination desired, as combinations may or may not be viable depending on the color and the support on which it is printed.

AMENITIES SENTIMENT®
WIPES SENTIMENT®

Bambulux®

The **Bambulux®** material is an innovation in products made from biodegradable and compostable materials, designed to offer exceptional performance and environmental friendliness.

With a weight of 100gr/m², this material is primarily made from bamboo, a fast-growing and sustainable plant that makes it an eco-friendly option. The combination of bamboo fibers with other biodegradable materials ensures a soft and durable texture, providing a comfortable and effective user experience.

In addition to its excellent performance, **Bambulux®** stands out for its commitment to sustainability. Being biodegradable and compostable, once used it can be responsibly disposed of to become beneficial nutrients for the soil, contributing to reducing pollution and the sustainable life cycle of natural resources.

Bambulux® is positioned as the best choice in the market not only for its superior quality but also for its positive impact on the environment. By choosing this product, consumers can enjoy the comfort and functionality of a premium napkin while helping preserve the planet for future generations.

NAPKIN AIR SOFT® 40X40 – COLOUR

At Karme Nature®, we are delighted to introduce our version of the napkin that has revolutionized the hospitality industry.

Our napkin belongs to the non-woven family and, being a single-use product, is recyclable and compostable, making it the perfect choice for special events, receptions, dinners, and more.

These napkins are made from 100% cellulose and undergo a complex manufacturing process that gives them a texture and finish very similar to fabric.

We offer a variety of shapes and designs so that restaurateurs have multiple options when decorating their tables.

At Karme Nature®, we strive to blend elegance and functionality in our products, providing our customers with the best possible experience at their events and establishments.

Discover our napkins and elevate the style and sustainability of your tables!

MINI KANGAROO AIR SOFT® 32X40 - COLOUR

The Mini Kangaroo 32x40 Air Soft® napkins we offer fulfill a dual purpose: providing a practical, modern, and hygienic product while also helping to reduce costs.

With dimensions of 32x40, these napkins require less raw material, making them more economical compared to standard 40x40 napkins.

The slightly narrower size of the Mini Kangaroo 32x40 napkins allows cutlery to fit better in the space, making them the ideal choice for breakfasts where cutlery is typically smaller.

Additionally, they are available in a wide variety of colors to easily match table decorations and can be personalized according to your preferences.

These napkins are an excellent choice for those seeking quality, practicality, and cost savings without sacrificing style. Discover the versatility and convenience of our Mini Kangaroo 32x40 Air Soft® napkins and enhance the experience at your breakfasts or special occasions!

Hidrosoft

HIDROSOFT

At Karme Nature, we are committed to protecting our planet, which is why we are proud to present our most revolutionary product in napkin manufacturing: HYDROSOFT.

This product, developed by our R&D department, is made 100% from cellulose pulp, a biodegradable and compostable material.

What makes Hydrosoft unique is its water-soluble characteristic, meaning it dissolves in water.

This quality makes it the most eco-friendly product on the market, as it does not generate waste that can harm the environment.

With Hydrosoft, you can enjoy the comfort and functionality of a high-quality napkin without compromising the sustainability of the planet.

We are confident that Hydrosoft will make a significant impact in the napkin industry, offering an innovative and environmentally friendly alternative.

Join us in this important step towards a more sustainable future!

CUT HAIR SALON TOWELS PRE-CUT ROLLS

We are pleased to introduce our high-quality Superabsorbent Towels, made with 85 g/m2 Air Soft®.

These towels, belonging to the non-woven family, stand out for their exceptional absorption capacity, being able to absorb up to 10 times their weight in liquid.

Additionally, they are incredibly soft to the touch, providing a comfortable and pleasant user experience.

Our Superabsorbent Towels are ideal for everyday use, as they allow you to avoid having to wash and dry the towels daily.

They are especially recommended for gyms, clinics, or hair salons, where quick and effective absorption is essential.

With our Superabsorbent Towels, we guarantee maximum quality and performance with each use.

Discover the comfort and practicality that our towels offer to meet the needs of your business or establishment!

**Due to the constant variations in raw materials, we reserve the right to change prices without prior notice. Prices are always displayed updated on our website www.karme.es.*

NovotexPlus®

The Novotex Plus® product range is part of the prestigious Novotex® product family, known for its quality, design, and versatility. What makes Novotex Plus® unique is its weight of 60 g/m2, which provides greater robustness to the material, resulting in a more compact and dense tablecloth that effectively covers the table base.

Additionally, the exclusive and innovative design of Novotex Plus® is achieved through the embossing technique known as thermal printing. This technique involves applying heat to the embossing, resulting in a durable and highly resistant stamping. With Novotex Plus®, you not only get a high-quality product but also one with a unique and long-lasting design.

Novotex Plus® represents a revolution in salon decoration, offering a product with character and exclusivity, accessible to all.

With a wide variety of colors and sizes available, Novotex Plus® adapts to all types of furniture and will add a special touch to your most exquisite creations.

Discover the excellence and distinction that Novotex Plus® can bring to your events and celebrations.

Novotex®

The **Novotex®** is the star product of the non-woven fabrics family, and its use in the restaurant market has experienced significant growth in recent years.

It is a single-use item that combines two highly valued properties: practicality and economy. With a composition of 100% polypropylene and a weight of 55 g/m2, **Novotex®** stands out for being a unique product in its class.

At Karme Nature®, we are leaders in the manufacturing of Novotex® and have developed a wide range of Coulour and patterns for tablecloths, both in rolls and precut, allowing for multiple combinations on tables and in rooms.

We manufacture this product in any size and shape imaginable, offering options such as rolls with and without precuts, round tablecloths, half-moons, and large formats ideal for rooms and banquets.

With Karme Nature's Novotex®, you can enjoy the versatility, quality, and variety needed to create unique and personalized environments at your events and celebrations.

Discover the excellence of our products and elevate the level of your service with our innovative and practical table linens.

PAPER TABLECLOTHS

Our paper tablecloths represent the most practical, ecological, and economical solution for dressing any table.Since our beginnings, we have been committed to offering a wide range of options in terms of qualities, sizes, and designs to meet the needs of our customers in the restaurant sector. We offer a variety of tablecloths both in rolls and pre-cut, ensuring that they can cover all needs.

rom the traditional 35-gram white tablecloth to the sturdy 100-gram one, we have options for all tastes and requirements. At Karme Nature®, we have always sought to be pioneers in offering the most advanced range on the market.

Additionally, as part of our commitment to the environment, we have the entire Eco Nature® line in stock for those customers who share our vision of sustainability.

CUTED PAPER TABLECLOTH

When it comes to dressing the table, pre-cut paper tablecloths are one of the most demanded, practical, and economical products.

At Karme Nature®, we offer the widest range on the market in terms of sizes, qualities, and designs. The pre-cut paper tablecloth is a product for those looking to give the table a more classic look. We also cater to those who, like us, prefer a greener planet, sustainable options, and opt for ecological tablecloths.

For them, we have a wide variety of options available.

PAPER TABLECLOTH 100X100 FOLDED 1/8

At Karme Nature®, an innovative and dynamic company committed to providing practical solutions to its customers, we manufacture 100x100 folded tablecloths at 1/8 the price of the most competitive market.

Specially designed for businesses with limited space, these tablecloths come in smaller boxes (50x25 at their base) and are dispensed individually. Their reduced dimensions once folded and shrink-wrapped make them ideal for cash & carry establishments where space is crucial.

We present this innovative tablecloth in a wide standard range of qualities and designs to adapt to various needs.

DIGITAL WITH PRINTING FRAME

Placemats with digital printing are a good option if you need a disposable Tablecloth with a short run. If there is a specific event in which a significant amount of Tablecloths is not necessary, it is a perfect alternative.

They offer great printing quality, both in full colour and in black ink. Thanks to our digital technology, we can reproduce images, designs, photos and fonts that are completely legible regardless of their size. As long as the digital files have the necessary quality.

PAPER NAPKINS

NAPKINS TIP TIP 24X40 1/6 BOOK FOLDED – COLOUR

Discover our Point-to-Point Book Fold Napkins in a 24x40 format, an economical and practical alternative with 6 usable sides.

We have innovated the orientation of the fold to provide greater versatility for those who prefer to use the napkin from its side.

This option, more compact and affordable, is presented as the economical alternative to its larger counterpart, the 30x40 napkin in 1/6 format.

Although it contains less paper, it maintains the same presence and quality on the table, ensuring an exceptional dining experience without compromising style or budget.

NAPKINS KANGUCEL® TIP TIP 30X40 1/6 – COLOUR

Karme presents the exclusive Kangucel®30x40, a napkin designed to meet the demand of restaurants looking to reduce costs.

Although seemingly similar to the Kangucel®40x40, this version uses less raw material, making it considerably more economical without compromising its presence on the table.

PAPER NAPKINS

NAPKIN 33X33 1/2 LAYERS

One of the most commonly used napkins in the hospitality industry, both for its convenient size and its economical factor. We offer embossed one and two-ply napkins as well as point-to-point napkins.

The 33x33 1 and 2-ply napkins provide significant absorption Layercity without the napkin shedding material and breaking down. They can also be personalized.

The Point-to-Point 33x33 Napkins are characterized by their fluffiness thanks to microdot cells and their high absorption factor. An economical and basic napkin for common uses, breakfasts, or informal events.

GREASEPROOF

SUSTAINABLE SOLUTIONS FOR YOUR BUSINESS

In response to the growing environmental awareness and market demand, at Karme Nature® we offer a wide range of high-quality greaseproof paper products in a variety of designs.

We are aware of the importance of providing products that meet current environmental standards, which is why our selection includes:

GREASEPROOF PAPER BAGS AND FAST FOOD
Designed to maintain the quality of food even in greasy and humid conditions.

Additionally, we have a variety of sizes available to suit the needs of your business.

Trust Karme Nature® to provide sustainable and professional solutions that highlight the quality of your products and reflect your business's commitment to the environment.

FEATURE

RECOMMENDED PRODUCT FOR FOOD USE

CUSTOMIZABLE PRODUCT

RECYCLABLE PRODUCT

GREASEPROOF PAPER BAGS

From juicy burgers to hot pizzas and flavorful sandwiches, our products require packaging that presents them impeccably.

Greaseproof paper is the ideal choice for this purpose, thanks to its ability to absorb liquid fats that may come off these foods.

Our greaseproof paper has non-stick and waterproof properties, acting as an effective barrier that keeps the food fresh and the presentation clean.

Additionally, its soft and smooth texture provides a pleasant tactile experience for your customers, without compromising its biodegradability.

Trust in our greaseproof paper to enhance the presentation of your food while caring for the environment with a sustainable and functional option.

KRAFT GREASEPROOF PAPER BAGS

Greaseproof paper is a good choice, providing non-stick and waterproof properties that act as a barrier and give the paper a smooth and slippery feel. Additionally, it remains **biodegradable and compostable**.

BAKERY

SUSTAINABLE SOLUTIONS FOR YOUR BUSINESS

In response to the growing environmental awareness and market demand, at Karme Nature® we offer a wide range of paper bags for bakeries.

We are aware of the importance of offering products that meet current environmental standards, which is why our selection includes:

WHITE CELLULOSE BAG
Ideal for a clean and elegant presentation.

RECYCLED KRAFT BAG
Contributes to waste reduction and sustainable use of resources.

KRAFT AMERICAN BAG
Resistant and versatile, perfect for carrying food and products.

Kraft Bag with Curly Handle and Watermark
Adds a crafty and distinctive touch to your products.

PECIAL FORMTS FOR PHARMACIES
Bags and reams designed to meet the specific needs of the pharmaceutical sector.

Additionally, we have a variety of sizes available to adapt to the needs of your business.

Trust in Karme Nature® to offer sustainable and professional solutions that highlight the quality of your products and reflect your business's commitment to the environment.

*Due to constant variations in raw materials,we reserve the right to change prices without prior notice. Prices are always updated on our website www.karme.es

RECYCLED KRAFT BAG

Our **recycled kraft bags** are essential allies in the fight against environmental deterioration. With recycled paper gaining increasing relevance in the market, we offer an eco-friendly option for your business.

Companies are choosing to include recycled paper in their manufacturing processes due to its positive impact on the environment. Paper fibers can be recycled 4 or 5 times, and its production requires 3% less energy than creating paper from virgin fiber.

Choose our recycled kraft bags and demonstrate your commitment to sustainability while providing an elegant and eco-conscious presentation for your products.

Prices include single-sided printing and ink printing (separate template). On two sides, increase the price of the stencil by 50%.
For additional colour increase the price by 10%. For printing with background the price increases by 30%.

Do you know why we help the environment with recycled paper bags?

Recycled paper bags are an excellent option for reducing environmental impact.

When these bags are discarded in natural spaces, they degrade without releasing toxic substances, turning into compost and minimizing their impact on the environment.

Additionally, recycled paper can be reused for other purposes, extending its useful life cycle and reducing the need for natural resources.

By choosing recycled paper bags, you are making a responsible decision that positively contributes to environmental conservation.

LAID KRAFT BAG

The ribbed Kraft bags are the ideal choice if you are looking for a more durable and stylish option than conventional natural Kraft bags. Their characteristic texture gives them an elegant and sophisticated appearance, adding a touch of distinction to your products.

Trust in the quality and style of our ribbed Kraft bags to stand out among the competition.

GENERAL CONDITIONS

1.CATALOGS, OFFERS, AND ORDERS:

1.1.The information provided under these concepts: prices, dimensions, characteristics ... is always indicative, never binding.

1.2. Any condition stated by the buyer in the order that does not comply with the general sales conditions will be considered null unless our acceptance is expressly stated in the written order acceptance.

2. MERCHANDISE::

2.1. All merchandise must arrive on shrink-wrapped pallets and without signs of manipulation to ensure that the merchandise arrives in perfect condition. If the packaging arrives damaged, it must be noted on the carrier's delivery note to avoid future problems.

2.2. When delivery of merchandise to a different destination than the fiscal address is required, the customer must notify this change in writing.

3. PRICES:

3.1. The prices that appear in our rate do not include VAT.

3.2. Our sales prices may vary / simple notice to the buyer. If there were orders pending delivery on the date of the modification, these would be maintained, and the new ones would be applied to future orders.

3.3. The duration of the current prices will be indeterminate, depending on the movements of raw materials, and the company reserves the right to make any changes it deems appropriate.

3.4. The amount of postage paid orders is €500 (Tax Base), and different products can be grouped together.

3.5. Due to constant variations in raw materials, we reserve the right to change prices without prior notice. Prices are always updated on our website *www.karme.es.*

4.DELIVERY TIMES

4.1 Delivery times will be counted from order acceptance and are merely indicative.

4.1.1 15 natural days for standard product orders.

4.1.2 30 natural days for personalized product orders.

4.1.3 The first order will be delayed until confirmation of risk by the insurance company.

4.2 Delivery times are merely indicative as there are aspects during product delivery that are beyond our control.

4.3 Delays in delivery caused by force majeure or reasons not directly attributable will not justify cancellation by the buyer of the involuntarily delayed order.

5. PAYMENT TERMS:

5.1. Payment of the price of our goods must be made in cash or prepaid transfer, unless credit/part is granted by the insurance company to the buyer, in which case it will be made effective within the period or periods expressly stipulated.

5.2. If, before the completion of all or part of an order, facts or circumstances occur or become known that give rise to suspicion that the buyer will fail to comply with his payment obligation or simply that the insurance company will partially or totally reduce its risk, the delivery may be suspended. of the goods if the buyer does not advance payment.

6. CLAIMS:

6.1. In the event that they notice differences in the quantity or defects due to transportation upon arrival of the merchandise, they must record them in the delivery documents, in the possession of the carrier. No claims/deterioration or lack of merchandise will be accepted once the delivery note has been signed in accordance.

6.2. The period to claim will be 15 days from the arrival of the merchandise, before its use when the defect or irregularity cannot be detected by a simple examination. After notifying a claim, the transformation or return of the merchandise can only be carried out with the agreement of the company. The cost of transportation will be borne by the customer (when the reason for the return is not the company's responsibility).

6.3. If the return of the item is accepted, the customer will be paid a maximum of 90% of its value, as long as the material is in perfect condition. 10% will always be deducted from the amount for reception, testing and inspection costs.

6.4. In any case, all of the merchandise subject to the claim must be available, intact and perfectly identifiable. The discovery of a defect that affects only a part of the delivered merchandise does not give the buyer the right not to fulfill the obligation to pay within the deadline for all of the merchandise, nor to motivate the total or partial renunciation of the same.

Data Protection:

7. GENERAL:

7.1. The company expressly guarantees that any data provided is kept confidential and under no circumstances sells customer information to third parties or shares any data.

8. TREATMENT OF YOUR PERSONAL DATA:

8.1. To process your order, we require certain personal data such as business name, VAT number, email... which are processed electronically. You authorize that this data be archived in our customer database for internal use and to provide you with information about promotions and services from KARME NATURE SL.

8.2. In compliance with REGULATION (EU) 2016/679, and in relation to the processing of your personal data, we inform you of the following:

Responsible: The person responsible for the treatment is KARME NATURE SL, Avda. Francisco Vitoria Laporta, N 8, 03830, Muro de Alcoy (ALICANTE).

Purpose: Sending information, responding to your queries and requests, while our relationship lasts and we have your consent.

Legitimation: Execution of contract or consent of the interested party.

Recipients: No data will be transferred to third parties except legal obligation.

Rights: You can exercise the rights of access, rectification, deletion and portability of your data, and the limitation or opposition to the processing by writing accompanied by a copy of an official document that identifies you, addressed to the Data Controller. In case of disagreement with the treatment, you also have the right to file a claim with the Spanish Data Protection Agency.
